To whom it concerns:

I have had the pleasure of working with Bob Prestwood for several years with him providing financing and refinancing my apartment buildings. Bob is a hard worker who has always been very honest. If Bob is not sure about something when I ask him a question, he gets back to me with the correct information.
He provides a great service to commercial building investors like me.

If you have further questions about Bob or his services please contact me directly,

Best wishes,

Jerry,
